Profile

Languages: **Spanish**, English

I am a Developer and Designer highly experienced in solving **performance**, **accessibility** and **User experience issues**. I spent the last 4 years **designing mobile applications, websites** and pushing organization forwards.

I have knowledge in **Front-End Development constraints** and I am able to fill the gap between designers and developers in a team by applying **Atomic Design methodology** and using tools like **Design System.**

Main Skills

- **Flutter**
- **Swift**
- Wireframing / Prototyping
- **User Interface / Design (UI)**
- **User Experience (UX)**
- **React Native**

Tools & Languages

- **Figma**, Framer
- Sketch, InVision
- **HTML5, CSS 3, JavaScript**
- WordPress, MySQL
- Git, SVN
- Sublime Text, VS Code
